PROFILE

I am Joshua, an Arlington-based web developer with marketing and management experience. I am currently looking for a full-time web position. I am seeking to use my web development experience, content creation aptitude, and organizational skills to assist in the creation or specialization of websites and web applications.

EXPERIENCE

Remote Front-End Developer | 2020 - Present

SALLY BEAUTY www.sallybeauty.com, www.cosmoprofbeauty.com

- Developed multiple front end projects for both internal & external use.
- Actively maintained & improved a myriad of extremely high-traffic websites.
- Led several web initiatives that got launched into production at a global scale.
- Designed and integrated templates utilizing Salesforce Commerce Cloud.

Front-End Developer | 2019 - 2020

IMAGINUITY www.imaginuity.com

- Developed the entire Front End for a high traffic 99% up time website www.uptexas.org
- Made web enhancements and landing page's for multiple established websites. www.webuyuglyhouses.com, www.homevestors.com, www.uptexas.org
- Created HTML Email's for targeted marketing campaigns www.serviceexperts.com
- Designed and integrated page templates utilizing a CMS (WordPress / Kentico)

CREATIVE REVOLT www.creativerevolt.com

- Revamped the design with a bolder color palette / layout
- Created the landing page and multiple sections utilizing WordPress (DiviBuilder)

PROJECTS

Check my online portfolio for more projects.
www.joshuaroper.com

DI REPAIRS | 2020 www.direpairs.com

As the only developer & designer on this freelance project. I completely re-envisioned the site design & built the project from the ground up as an extremely performant SSG website. I utilized development & design best practices with a focus on the user experience.

React	Gatsby JS	Node JS	JavaScript (ES8)	WordPress API	SCSS/ SCSS	PHP
-------	-----------	---------	------------------	---------------	------------	-----

HALCYON | 2019 www.visithalcyon.com

I was one of the developers on the project primarily tasked with creating the movies page and events directory. Across the project I worked with multiple APIs, React Static, and developed code for other advanced React components.
